

MARIANA ISLANDS

TRAINING AND TESTING SUPPLEMENTAL EIS/OEIS RECORD OF DECISION

Notice of Availability

The U.S. Navy, after carefully weighing the strategic, operational, and environmental consequences of the Proposed Action, announces the release of the Record of Decision to continue training and testing activities within the Mariana Islands Training and Testing (MITT) Supplemental Environmental Impact Statement/Overseas Environmental Impact Statement (EIS/OEIS) Study Area.

The Navy made its decision after considering the potential impacts training and testing activities may have on human, natural, and cultural environments, as well as comments from elected officials, government agencies, organizations, and the public on the proposal and environmental analysis.

The Navy is committed to being a good steward of the environment and will implement mitigation measures to avoid or reduce potential environmental impacts from training and testing.

For More Information

The Record of Decision, Final Supplemental EIS/OEIS, and supporting documents are available online at www.MITT-EIS.com.

The Record of Decision has been sent to mayors' offices in the villages of Hagåtña, Mangilao, and Dededo on Guam, and mayors' offices on Saipan, Tinian, and Rota for public viewing.

Visit www.MITT-EIS.com to view the Record of Decision and Final Supplemental EIS/OEIS.

Record of Decision

The Record of Decision documents the Navy's decision to continue training and testing activities within the Study Area as described in the MITT Final Supplemental EIS/OEIS under Alternative 2, the Preferred Alternative.

Implementation of the Preferred Alternative will allow the Navy, other U.S. military services, and the U.S. Coast Guard to fully meet current and future training and testing requirements.
